To All Concerned Parties:

The Cradock Civic League voted Tuesday, April 7, 2009 to present the following list of concerns to the SPSA Board Meeting in regards to the potential sale of the SPSA Waste to Energy Plant. Currently SPSA is entertaining two possible purchasers for the SPSA Waste to Energy Plant in Portsmouth, Virginia – Wheelabrator Technologies, Inc. and Covanta.

In speaking with Tom Kreidal the SPSA Public Relations Coordinator and with the Cradock Civic League Membership the following items were generated.

- SPSA would arrange a visit of the potential buyers of the SPSA Waste to Energy Plant (Covanta and Wheelerbrator Technologies, Inc.) to attend the Cradock Civic League meeting to present their proposals prior to the purchase of the Waste to Energy Plant. To date Wheelabrator Technologies, Inc. and Re'Energy Holdings LLC have presented to the Cradock Civic League. Covanta has not.
- SPSA would arrange for the Cradock Civic League President to speak at the SPSA Board Meeting to present the following concerns and to ask that the following concerns be written into the sales agreement of the SPSA Waste to Energy Plant and that the new owners of the Waste To Energy Plant continue the following projects:
  1. New Waste to Energy Plant Owner will continue to be good neighbors with Cradock Community and Southeastern Portsmouth Communities and continue the SPSA's Portsmouth Citizen Advisory Committee. They will continue to maintain an information website that will continue to report emission readings.
  2. The New Waste to Energy Plant Owner and Plant will continue to participate in the Elizabeth River Star Program.
  3. The New Waste to Energy Plant Owners and Plant will not bring in out of state trash or out of the SPSA southeastern Virginia region trash through truck or barge.
  4. The New Waste to Energy Plant Owners will execute, fund and maintain the landscaping plans presented by the SPSA to the Cradock Civic League for Victory Boulevard and Elm Avenue. They will also cosmetically and functionally refurbish both facilities and maintain the facility and landscaping. They will also install the tipping room curtain at the drop off doors.
  5. Trash will continued to be picked by the New Waste to Energy Plant Owners along Victory Boulevard and trucks will continued to be monitored for open containers.

June 6, 2009

The Cradock Civic League submits this letter respectfully to the SPSA Board and asks that all concerned parties review and address the following list of concerns in writing. Please help Cradock to maintain and restore its community's historic streetscapes and build a strong community by supporting the Cradock Neighborhood. Thank you for your time and attention.

Sincerely,

A handwritten signature in black ink, appearing to read "Joanna Hall". The signature is fluid and cursive, with a large initial "J" and a long, sweeping underline.
